

## Mouse WAP, kazal, immunoglobulin, kunitz and NTR domain-containing protein 1 ELISA Kit | Wfikkn1 elisa kit

Mouse WAP, kazal, immunoglobulin, kunitz and NTR domain-containing protein 1 ELISA Kit

|                               |                            |
|-------------------------------|----------------------------|
| CATALOG #<br><b>AAA196187</b> | REACTIVITY<br><b>Mouse</b> |
|-------------------------------|----------------------------|

### PRODUCT SYNONYMS

WAP; kazal; immunoglobulin; kunitz and NTR domain-containing protein 1; Mouse WAP; kunitz and NTR domain-containing protein 1 ELISA Kit; Growth and differentiation factor-associated serum protein 2; GASP-2; mGASP-2; Wfikkn1; Gasp2; Wfikkn1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                           |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                     |
| Specificity             | This assay recognizes recombinant and natural mouse WAP, kazal, immunoglobulin, kunitz and NTR domain-containing protein 1. No significant cross-reactivity or interference was observed. |
| Sequence Length         | 548                                                                                                                                                                                       |
| Samples                 | serum, Plasma, tissue homogenates and Cell culture supernates and Other biological fluids                                                                                                 |
| Detection Range         | 31.2 pg/mL -2000 pg/mL                                                                                                                                                                    |
| Sensitivity             | <15.66 pg/mL                                                                                                                                                                              |
| Preparation and Storage | For long term storage, please store the entire kit at -20 degree C.                                                                                                                       |
