ADDITIONAL INFORMATION

Related Product Information for anti-ESRRB antibody	This is a rabbit polyclonal antibody against ESRRB. It was validated on Western Blot using a cell lysate as a positive control. Target Description: ESRRB encodes a protein with similarity to the estrogen receptor. Its function is unknown; however, a similar protein in mouse plays an essential role in placental development. Sequence Note: The sequence AF094517.1 is from a chimeric clone. Only the ESRRB sequence was propagated into this RefSeq record.
