ADDITIONAL INFORMATION

Related Product Information for anti-TEAD3 antibody	This is a rabbit polyclonal antibody against TEAD3. It was validated on Western Blot using a cell lysate as a positive control. Target Description: TEAD3 is a member of the transcriptional enhancer factor (TEF) family of transcription factors, which contain the TEA/ATTS DNA-binding domain. It is predominantly expressed in the placenta and is involved in the transactivation of the chorionic somatomammotropin-B gene enhancer. Translation of this protein is initiated at a non-AUG (AUA) start codon.This gene product is a member of the transcriptional enhancer factor (TEF) family of transcription factors, which contain the TEA/ATTS DNA-binding domain.
