### PRODUCT SYNONYMS

SLC35F2; Polyclonal Antibody; SLC35F2 antibody - N-terminal region; anti-SLC35F2 antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                                       |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                                                                                |
| Reactivity                                        | Human                                                                                                                                                 |
| Clonality                                         | Polyclonal                                                                                                                                            |
| Purity/Purification                               | Protein A purified                                                                                                                                    |
| Form/Format                                       | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                          | Synthetic peptide with the following region: ME ADSPAGPGAP EPLAEGAAAE FSSLLRRIRG KLFTWNILKT IALGQMLS                                                  |
| Sequence Length                                   | 374                                                                                                                                                   |
| Applicable Applications for anti-SLC35F2 antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                         |
| Homology                                          | Human: 100%                                                                                                                                           |
| Immunogen                                         | The immunogen is a synthetic peptide directed towards the N terminal region of human SLC35F2                                                          |
| Preparation and Storage                           | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |
