ADDITIONAL INFORMATION

Related Product Information for anti-CSNK1D antibody	This is a rabbit polyclonal antibody against CSNK1D. It was validated on Western Blot using a cell lysate as a positive control. Target Description: This gene is a member of the casein kinase I (CKI) gene family whose members have been implicated in the control of cytoplasmic and nuclear processes, including DNA replication and repair. The encoded protein is highly similar to the mouse and rat CK1 del
