### PRODUCT SYNONYMS

TNFAIP8L1; Polyclonal Antibody; TNFAIP8L1 antibody - middle region; anti-TNFAIP8L1 antibody

### PRODUCT SPECIFICATIONS

|                                                     |                                                                                                                                                       |
|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                                | Rabbit                                                                                                                                                |
| Reactivity                                          | Cow, Dog, Horse, Human, Mouse, Rat                                                                                                                    |
| Clonality                                           | Polyclonal                                                                                                                                            |
| Purity/Purification                                 | Affinity Purified                                                                                                                                     |
| Form/Format                                         | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                            | Synthetic peptide with the following region: AK SHGRINHVFG HLADCFLAA LYGPAEPYRS HLRRICEGLG RMLDEGSL                                                   |
| Sequence Length                                     | 186                                                                                                                                                   |
| Applicable Applications for anti-TNFAIP8L1 antibody | WB (Western Blot)                                                                                                                                     |
| Homology                                            | Cow: 93%; Dog: 100%; Horse: 100%; Human: 100%; Mouse: 93%; Rat: 100%                                                                                  |
| Immunogen                                           | The immunogen is a synthetic peptide directed towards the middle region of human TNFAIP8L1                                                            |
| Preparation and Storage                             | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

### IMAGES

**WB (Western Blot)**

WB Suggested Anti-TNFAIP8L1 Antibody Titration: 0.2-1 ug/ml  
ELISA Titer: 1:62500  
Positive Control: HepG2 cell lysate

**WB (Western Blot)**

Host: Rabbit  
Target Name: TNFAIP8L1  
Sample Tissue: Human NCI-H226 Whole Cell  
Antibody Dilution: 1ug/ml

### ADDITIONAL INFORMATION

|                                                         |                                                                                                                                                                                                                                                              |
