ADDITIONAL INFORMATION

Related Product Information for anti-TXN2 antibody	This is a rabbit polyclonal antibody against TXN2. It was validated on Western Blot using a cell lysate as a positive control. Target Description: TXN2 is a mitochondrial member of the thioredoxin family, a group of small multifunctional redox-active proteins. TXN2 may play important roles in the regulation of the mitochondrial membrane potential and in protection against oxidant-induced apoptosis. This nuclear gene encodes a mitochondrial member of the thioredoxin family, a group of small multifunctional redox-active proteins. The encoded protein may play important roles in the regulation of the mitochondrial membrane potential and in protection against oxidant-induced apoptosis.
