ADDITIONAL INFORMATION

Related Product Information for anti-PREP antibody	This is a rabbit polyclonal antibody against PREP. It was validated on Western Blot using a cell lysate as a positive control. Target Description: PREP is a cytosolic prolyl endopeptidase that cleaves peptide bonds on the C-terminal side of prolyl residues within peptides that are up to approximately 30 amino acids long. Prolyl endopeptidases have been reported to be involved in the maturation and d
