

## Human Beta-Thromboglobulin (beta-TG) ELISA Kit | beta-TG elisa kit

Human beta-Thromboglobulin (beta-TG) ELISA Kit

CATALOG #  
**AAA202227**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Beta-Thromboglobulin (beta-TG); Human beta-Thromboglobulin (beta-TG) ELISA Kit; beta-TG elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 99                                                                |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 4ng/ml-64ng/ml                                                    |
| Sensitivity     | 0.1 ng/ml                                                         |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for beta-TG elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of beta-TG in the sample, this beta-TG ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus beta-TG concentration. The concentration of beta-TG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|             |        |
|-------------|--------|
| NCBI GI #   | 179580 |
| NCBI GeneID | 3576   |

|                                  |                                                                     |
|----------------------------------|---------------------------------------------------------------------|
| NCBI Official Full Name          | beta-thromboglobulin-like protein                                   |
| NCBI Official Synonym Full Names | C-X-C motif chemokine ligand 8                                      |
| NCBI Official Symbol             | CXCL8                                                               |
| NCBI Official Synonym Symbols    | IL8; NAF; GCP1; LECT; LUCT; NAP1; GCP-1; LYNAP; MDNCF; MONAP; NAP-1 |
| NCBI Protein Information         | interleukin-8                                                       |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
