

Human Secretory Component (SC) ELISA Kit | SC elisa kit

Human Secretory Component (SC) ELISA Kit

CATALOG #
AAA202479

REACTIVITY
Human

PRODUCT SYNONYMS

Secretory Component (SC); Human Secretory Component (SC) ELISA Kit; SC elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	224
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	25ng/ml-400ng/ml
Sensitivity	1 ng/ml

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for SC elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SC in the sample, This SCELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SC concentration. The concentration of SC in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	1283008071
NCBI Official Full Name	secretory component

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
