

Human Bone-Specific Alkphase B, ALP-B (B-ALP) ELISA Kit | B-ALP elisa kit

Human Bone-Specific Alkphase B, ALP-B (B-ALP) ELISA Kit

CATALOG #
AAA202558

REACTIVITY
Human

PRODUCT SYNONYMS

Bone-Specific Alkphase B; ALP-B (B-ALP); Human Bone-Specific Alkphase B; ALP-B (B-ALP) ELISA Kit; B-ALP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	3 U/L-48 U/L
Sensitivity	0.1 U/L

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for B-ALP elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of B-ALP in the sample, This B-ALP Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus B-ALP concentration. The concentration of B-ALP in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
