

Human Staphylococcal Enterotoxin A (SEA) ELISA Kit | SEA elisa kit

Human Staphylococcal Enterotoxin A (SEA) ELISA Kit

CATALOG #
AAA202702

REACTIVITY
Human

PRODUCT SYNONYMS

Staphylococcal Enterotoxin A (SEA); Human Staphylococcal Enterotoxin A (SEA) ELISA Kit; SEA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	257
Sensitivity	0.1 ng/mL

ADDITIONAL INFORMATION

Related Product Information for SEA elisa kit

Intended Uses: This SEA ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SEA in the sample, this SEA ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SEA concentration. The concentration of SEA in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	153121
NCBI Official Full Name	staphylococcal enterotoxin A

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
