

Human Cortisone ELISA Kit

Human Cortisone ELISA Kit

CATALOG #
AAA202789

REACTIVITY
Human

PRODUCT SYNONYMS

Cortisone; Human Cortisone ELISA Kit; Cortisone elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sensitivity	1 nmol/L
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Cortisone elisa kit

Intended Uses: This CORTISONE ELISA kit is intended Laboratory for Research use only!. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CORTISONE in the sample, this CORTISONE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CORTISONE concentration. The concentration of CORTISONE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
