

Human Phosphofructokinase (PFK) ELISA Kit | PFK elisa kit

Human Phosphofructokinase (PFK) ELISA Kit

CATALOG #
AAA202876

REACTIVITY
Human

PRODUCT SYNONYMS

Phosphofructokinase (PFK); Human Phosphofructokinase (PFK) ELISA Kit; PFK elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	78
Sensitivity	1.0 ng/mL

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for PFK elisa kit

Intended Uses: This PFK ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of PFK in the sample, this PFK ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus PFK concentration. The concentration of PFK in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	24473732
NCBI Official Full Name	phosphofructokinase, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
