

Human Lambda Immunoglobulin Light Chain (lambda FLC) ELISA Kit | lambdaFLC elisa kit

Human Lambda Immunoglobulin Light Chain (lambda FLC) ELISA Kit

CATALOG #
AAA202937

REACTIVITY
Human

PRODUCT SYNONYMS

Lambda Immunoglobulin Light Chain (lambda FLC); Human Lambda Immunoglobulin Light Chain (lambda FLC) ELISA Kit; lambdaFLC elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	115
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	2 mg/L-32 mg/L
Sensitivity	0.1 mg/L

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for lambdaFLC elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of lambdaFLC in the sample, This lambdaFLC Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus lambdaFLC concentration. The concentration of lambdaFLC in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	283464305
NCBI Official Full Name	lambda immunoglobulin light chain, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
