

Human BUN ELISA Kit | BUN elisa kit

Human BUN ELISA Kit

CATALOG #
AAA202976

REACTIVITY
Human

PRODUCT SYNONYMS

BUN; Human BUN ELISA Kit; BUN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sensitivity	1.0 pg/mL

ADDITIONAL INFORMATION

Related Product Information for BUN elisa kit

Intended Uses: This BUN ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of BUN in the sample, this BUN ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus BUN concentration. The concentration of BUN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
