

Human Coagulation Factor II (FII) ELISA Kit | FII elisa kit

Human Coagulation Factor II (FII) ELISA Kit

CATALOG #
AAA202988

REACTIVITY
Human

PRODUCT SYNONYMS

Coagulation Factor II (FII); Human Coagulation Factor II (FII) ELISA Kit; FII elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	618
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	100 U/L-1600 U/L
Sensitivity	10 U/L

ADDITIONAL INFORMATION

Related Product Information for FII elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of FII in the sample, This FII ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus FII concentration. The concentration of FII in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	15489100
NCBI GeneID	14061
NCBI Official Full Name	Coagulation factor II

NCBI Official Synonym Full Names	coagulation factor II
NCBI Official Symbol	F2
NCBI Official Synonym Symbols	Cf2; FII; Cf-2
NCBI Protein Information	prothrombin

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
