

## Human Coagulation Factor IX (FIX) ELISA Kit | FIX elisa kit

Human Coagulation Factor IX (FIX) ELISA Kit

CATALOG #  
**AAA202992**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Coagulation Factor IX (FIX); Human Coagulation Factor IX (FIX) ELISA Kit; FIX elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                   |
|-----------------------|-----------------------------------|
| Reactivity            | Human                             |
| Sequence Length       | 461                               |
| Sensitivity           | 0.1 ng/ml                         |
| Intra-assay Precision | Intra-assay CV are less than 15%. |
| Inter-assay Precision | Inter-assay CV are less than 15%. |

### ADDITIONAL INFORMATION

#### Related Product Information for FIX elisa kit

Intended Uses: This FIX ELISA kit is intended for Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of FIX in the sample, this FIX ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus FIX concentration. The concentration of F IX in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                           |                             |
