

Human Acetyl CoA Carboxylase (AACase) ELISA Kit | AACase elisa kit

Human Acetyl CoA Carboxylase (AACase) ELISA Kit

CATALOG #
AAA203474

REACTIVITY
Human

PRODUCT SYNONYMS

Acetyl CoA Carboxylase (AACase); Human Acetyl CoA Carboxylase (AACase) ELISA Kit; AACase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	146
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	50 pmol/L-800 pmol/L
Sensitivity	1 pmol/L

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for AACase elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of AACase in the sample, This AACase ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus AACase concentration. The concentration of AACase in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	952352610
NCBI Official Full Name	acetyl Coa carboxylase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
