

Human Inducible Nitric Oxide Synthase (iNOS) ELISA Kit | iNOS elisa kit

Human Inducible Nitric Oxide Synthase (iNOS) ELISA Kit

CATALOG #
AAA203506

REACTIVITY
Human

PRODUCT SYNONYMS

Inducible Nitric Oxide Synthase (iNOS); Human Inducible Nitric Oxide Synthase (iNOS) ELISA Kit; iNOS elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	125
Sensitivity	0.1 ng/mL
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for iNOS elisa kit

Intended Uses: This INOSkit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of INOSin the sample, this INOSKit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus INOSconcentration. The concentration of INOSin the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	59796487
NCBI Official Full Name	inducible nitric oxide synthase, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
