

Human Adipose Triglyceride Lipase (ATGL) ELISA Kit | ATGL elisa kit

Human Adipose Triglyceride Lipase (ATGL) ELISA Kit

CATALOG #
AAA203546

REACTIVITY
Human

PRODUCT SYNONYMS

Adipose Triglyceride Lipase (ATGL); Human Adipose Triglyceride Lipase (ATGL) ELISA Kit; ATGL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	504
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	30ng/ml-480ng/ml
Sensitivity	1 ng/ml

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for ATGL elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ATGL in the sample, This ATGL ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ATGL concentration. The concentration of ATGL in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	58759051
NCBI GeneID	57104
NCBI Official Full Name	adipose triglyceride lipase

NCBI Official Synonym Full Names	patatin like phospholipase domain containing 2
NCBI Official Symbol	PNPLA2
NCBI Official Synonym Symbols	ATGL; TTS2; PEDF-R; FP17548; TTS-2.2; iPLA2zeta; 1110001C14Rik
NCBI Protein Information	patatin-like phospholipase domain-containing protein 2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
