

Human Transketolase (TKT) ELISA Kit | TKT elisa kit

Human Transketolase (TKT) ELISA Kit

CATALOG #
AAA203603

REACTIVITY
Human

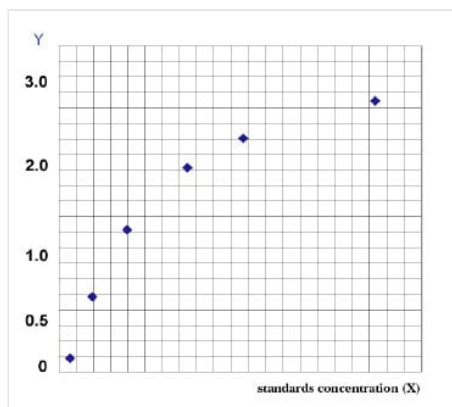

PRODUCT SYNONYMS

Transketolase (TKT); Human Transketolase (TKT) ELISA Kit; TKT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	653
Sensitivity	0.1 ng/mL
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for TKT elisa kit

Intended Uses: This TKT ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of TKT in the sample, this TKT ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus TKT concentration. The concentration of TKT in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	319754432
NCBI Official Full Name	transketolase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
