

## Human Tissue Polypeptide Antigen (TPA) ELISA Kit | TPA elisa kit

Human Tissue Polypeptide Antigen (TPA) ELISA Kit

CATALOG #  
**AAA203624**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Tissue Polypeptide Antigen (TPA); Human Tissue Polypeptide Antigen (TPA) ELISA Kit; TPA elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 562                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 15 U/L-240 U/L                                                    |
| Sensitivity     | 1 U/L                                                             |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for TPA elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of TPA in the sample, This TPA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus TPA concentration. The concentration of TPA in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                     |        |
|---------------------|--------|
| NCBI GI #           | 190032 |
| NCBI GeneID         | 5327   |
| UniProt Accession # | P00750 |

|                                  |                                    |
|----------------------------------|------------------------------------|
| NCBI Official Full Name          | tissue-type plasminogen activator  |
| NCBI Official Synonym Full Names | plasminogen activator, tissue type |
| NCBI Official Symbol             | PLAT                               |
| NCBI Official Synonym Symbols    | TPA; T-PA                          |
| NCBI Protein Information         | tissue-type plasminogen activator  |
| UniProt Protein Name             | Tissue-type plasminogen activator  |
| UniProt Gene Name                | <b>PLAT</b>                        |
| UniProt Synonym Gene Names       | t-PA; t-plasminogen activator; tPA |
| UniProt Entry Name               | TPA_HUMAN                          |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
