

## Human Relaxin-2 (RLN) ELISA Kit | RLN elisa kit

Human Relaxin-2 (RLN) ELISA Kit

CATALOG #  
**AAA203728**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Relaxin-2 (RLN); Human Relaxin-2 (RLN) ELISA Kit; RLN elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 185                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 15 pg/ml-240 pg/ml                                                |
| Sensitivity     | 1 pg/ml                                                           |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for RLN elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of RLN in the sample, This RLNELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus RLN concentration. The concentration of RLN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                         |           |
|-------------------------|-----------|
| NCBI GI #               | 116497221 |
| NCBI GeneID             | 6019      |
| NCBI Official Full Name | Relaxin 2 |

|                                  |                                             |
|----------------------------------|---------------------------------------------|
| NCBI Official Synonym Full Names | relaxin 2                                   |
| NCBI Official Symbol             | RLN2                                        |
| NCBI Official Synonym Symbols    | H2; RLXH2; H2-RLX; bA12D24.1.1; bA12D24.1.2 |
| NCBI Protein Information         | pror relaxin H2                             |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
