

## Human CHLA-IgA ELISA Kit

Human CHLA-IgA Antibody ELISA Kit

CATALOG #  
**AAA203780**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

CHLA-IgA; Human CHLA-IgA Antibody ELISA Kit; CHLA-IgA elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 3ng/ml-48ng/ml                                                    |
| Sensitivity     | 0.1 ng/ml                                                         |

### ADDITIONAL INFORMATION

#### Related Product Information for CHLA-IgA elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CHLA-IGA ANTIBODY in the sample, This CHLA-IGA ANTIBODY ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CHLA-IGA ANTIBODY concentration. The concentration of CHLA-IGA ANTIBODY in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
