

## Human 5,6-EET ELISA Kit | 5,6-EET elisa kit

Human 5,6-EET ELISA Kit

CATALOG #  
AAA204123

REACTIVITY  
Human

### PRODUCT SYNONYMS

5; 6-EET; Human 5; 6-EET ELISA Kit; 6-EET elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                  |
|-----------------------|----------------------------------|
| Reactivity            | Human                            |
| Sensitivity           | 0.1 ng/mL                        |
| Intra-assay Precision | Intra-assay CV is less than 15%. |
| Inter-assay Precision | Inter-assay CV is less than 15%. |

### ADDITIONAL INFORMATION

#### Related Product Information for 5,6-EET elisa kit

Intended Uses: This 5,6-EET ANTIBODY ELISA kit is intended Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of 5,6-EET ANTIBODY in the sample, this 5,6-EET ANTIBODY ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus 5,6-EET ANTIBODY concentration. The concentration of 5,6-EET ANTIBODY in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
