

## Human Chemokine-Like Receptor 1 ELISA Kit | CMKLR1 elisa kit

Human Chemokine-Like Receptor 1 Antibody ELISA Kit

CATALOG #  
**AAA204184**

REACTIVITY  
**Human**

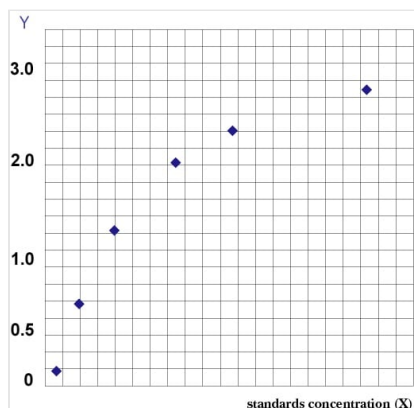

### PRODUCT SYNONYMS

Chemokine-Like Receptor 1; Human Chemokine-Like Receptor 1 Antibody ELISA Kit; CMKLR1 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 373                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 25ng/ml-400ng/ml                                                  |
| Sensitivity     | 1 ng/ml                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for CMKLR1 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CHEMOKINE-LIKE RECEPTOR 1 ANTIBODY in the sample, This CHEMOKINE-LIKE RECEPTOR 1 ANTIBODY ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CHEMOKINE-LIKE RECEPTOR 1 ANTIBODY concentration. The concentration of CHEMOKINE-LIKE RECEPTOR 1 ANTIBODY in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION
