

Human The Receptor Of Advanced Glycation End Products (RAGE) ELISA Kit | RAGE elisa kit

Human The Receptor Of Advanced Glycation End Products (RAGE) ELISA Kit

CATALOG # AAA204271	REACTIVITY Human
-------------------------------	----------------------------

PRODUCT SYNONYMS

The Receptor Of Advanced Glycation End Products (RAGE); Human The Receptor Of Advanced Glycation End Products (RAGE) ELISA Kit; RAGE elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	419
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	250 pg/ml-4000 pg/ml
Sensitivity	10 pg/ml

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for RAGE elisa kit	Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of RAGE in the sample, This RAGE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus RAGE concentration. The concentration of RAGE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	41017258
UniProt Accession #	B7Z7P6
NCBI Official Full Name	MAPK/MAK/MRK overlapping kinase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
