

## Human Prolyl Hydroxylases ELISA Kit

Human Prolyl Hydroxylases ELISA Kit

CATALOG #  
AAA204490

REACTIVITY  
Human

### PRODUCT SYNONYMS

Prolyl Hydroxylases; Human Prolyl Hydroxylases ELISA Kit; Prolyl Hydroxylases elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 2.5ng/ml-40ng/ml                                                  |
| Sensitivity     | 0.1 ng/ml                                                         |

### ADDITIONAL INFORMATION

#### Related Product Information for Prolyl Hydroxylases elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Human Prolyl Hydroxylases in the sample, This Human Prolyl Hydroxylases Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Human Prolyl Hydroxylases concentration. The concentration of Human Prolyl Hydroxylases in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
