

Human Membrane Protein, Palmitoylated ELISA Kit

Human Membrane Protein, Palmitoylated ELISA Kit

CATALOG #
AAA204965

REACTIVITY
Human

PRODUCT SYNONYMS

Membrane Protein; Palmitoylated; Human Membrane Protein; Palmitoylated ELISA Kit; Palmitoylated elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	466
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	250 pg/ml-4000 pg/ml
Sensitivity	10 pg/ml

ADDITIONAL INFORMATION

Related Product Information for Membrane Protein, Palmitoylated elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of MEMBRANE PROTEIN, PALMITOYLATED in the sample, This MEMBRANE PROTEIN, PALMITOYLATED ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus MEMBRANE PROTEIN, PALMITOYLATED concentration. The concentration of MEMBRANE PROTEIN, PALMITOYLATED in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	148697286
NCBI Official Full Name	membrane protein, palmitoylated

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
