

## Human Phosphodiesterase 4 ELISA Kit

Human Phosphodiesterase 4 ELISA Kit

CATALOG #  
**AAA205078**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Phosphodiesterase 4; Human Phosphodiesterase 4 ELISA Kit; Phosphodiesterase 4 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 250 pg/ml-4000 pg/ml                                              |
| Sensitivity     | 10 pg/ml                                                          |

### ADDITIONAL INFORMATION

#### Related Product Information for Phosphodiesterase 4 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of PHOSPHODIESTERASE 4 in the sample, This PHOSPHODIESTERASE 4 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus PHOSPHODIESTERASE 4 concentration. The concentration of PHOSPHODIESTERASE 4 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
