

Human Myelin Oligodendrocyte Glycoprotein (Anti-MOG) ELISA Kit | MOG elisa kit

Human Myelin Oligodendrocyte Glycoprotein Antibody (Anti-MOG) ELISA Kit

CATALOG #
AAA205163

REACTIVITY
Human

PRODUCT SYNONYMS

Myelin Oligodendrocyte Glycoprotein (Anti-MOG); Human Myelin Oligodendrocyte Glycoprotein Antibody (Anti-MOG) ELISA Kit; MOG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	247
Sensitivity	0.1 ng/mL
Intra-assay Precision	Intra-assay CV is less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for MOG elisa kit

Intended Uses: This Anti-MOG kit is intended Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Anti-MOG in the sample, this Anti-MOG Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Anti-MOG concentration. The concentration of Anti-MOG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	984147
NCBI Official Full Name	myelin oligodendrocyte glycoprotein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
