

## Human Toll Interacting Protein ELISA Kit | Tollip elisa kit

Human Toll Interacting Protein ELISA Kit

CATALOG #  
**AAA205240**

REACTIVITY  
**Human**

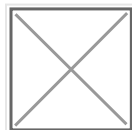

### PRODUCT SYNONYMS

Toll Interacting Protein; Human Toll Interacting Protein ELISA Kit; Tollip elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 274                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 75 pg/ml-1200 pg/ml                                               |
| Sensitivity     | 1 pg/ml                                                           |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for Tollip elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of TOLL INTERACTING PROTEIN in the sample, This TOLL INTERACTING PROTEIN ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus TOLL INTERACTING PROTEIN concentration. The concentration of TOLL INTERACTING PROTEIN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                                  |                                |
