

Human Sodium Bile Acid Cotransporter ELISA Kit

Human Sodium Bile Acid Cotransporter ELISA Kit

CATALOG #
AAA205474

REACTIVITY
Human

PRODUCT SYNONYMS

Sodium Bile Acid Cotransporter; Human Sodium Bile Acid Cotransporter ELISA Kit; Sodium Bile Acid Cotransporter elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	415
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	312.5 pg/ml-5000 pg/ml
Sensitivity	10 pg/ml

ADDITIONAL INFORMATION

Related Product Information for Sodium Bile Acid Cotransporter elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SODIUM BILE ACID COTRANSPORTER in the sample, This SODIUM BILE ACID COTRANSPORTER ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SODIUM BILE ACID COTRANSPORTER concentration. The concentration of SODIUM BILE ACID COTRANSPORTER in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	1387836024
NCBI Official Full Name	sodium bile acid cotransporter

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
