

Human Big Dynorphin A1-13 ELISA Kit

Human Big Dynorphin A1-13 ELISA Kit

CATALOG #
AAA205516

REACTIVITY
Human

PRODUCT SYNONYMS

Big Dynorphin A1-13; Human Big Dynorphin A1-13 ELISA Kit; Big Dynorphin A1-13 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sensitivity	1.0 pg/mL

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Big Dynorphin A1-13 elisa kit

Intended Uses: This DYN A1-13 ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of DYN A1-13 in the sample, this DYN A1-13 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus DYN A1-13 concentration. The concentration of DYN A1-13 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
