

Human Cadherin ELISA Kit

Human Cadherin ELISA Kit

CATALOG #
AAA205557

REACTIVITY
Human

PRODUCT SYNONYMS

Cadherin; Human Cadherin ELISA Kit; Cadherin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	12.5ng/ml-200ng/ml
Sensitivity	1 ng/ml

ADDITIONAL INFORMATION

Related Product Information for Cadherin elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CADHERIN in the sample, This CADHERIN ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CADHERIN concentration. The concentration of CADHERIN in the samples is then determined by comparing the O.D. of the samples to the standard curve.
