

Human Vitamin H ELISA Kit

Human Vitamin H ELISA Kit

CATALOG #
AAA205673

REACTIVITY
Human

PRODUCT SYNONYMS

Vitamin H; Human Vitamin H ELISA Kit; Vitamin H elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	469
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	125ng/ml-2000ng/ml
Sensitivity	10 ng/ml

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Vitamin H elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of VITAMIN H in the sample, This VITAMIN HELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus VITAMIN H concentration. The concentration of VITAMIN H in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	1283015597
NCBI Official Full Name	vitamin H

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
