

Human Amino Acid ELISA Kit

Human Amino Acid ELISA Kit

CATALOG #
AAA205718

REACTIVITY
Human

PRODUCT SYNONYMS

Amino Acid; Human Amino Acid ELISA Kit; Amino Acid elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	672
Sensitivity	0.1 ng/ml
Intra-assay Precision	Intra-assay CV are less than 15%.
Inter-assay Precision	Inter-assay CV are less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Amino Acid elisa kit

Intended Uses: This AA ELISA kit is intended for Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of AA in the sample, this AA ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus AA concentration. The concentration of AA in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	661187340
NCBI Official Full Name	amino acid

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
