

## Human Der P1 IgE ELISA Kit

Human Der P1 IgE ELISA Kit

CATALOG #  
AAA205933

REACTIVITY  
Human

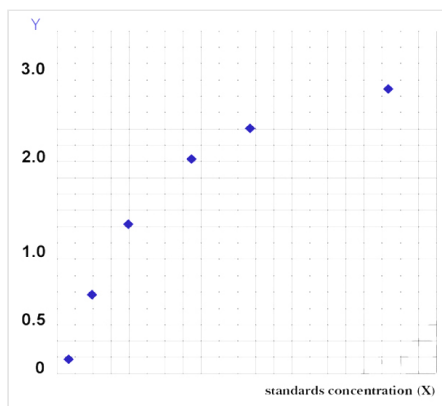

### PRODUCT SYNONYMS

Der P1 IgE; Human Der P1 IgE ELISA Kit; Der P1 IgE elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                   |
|-----------------------|-----------------------------------|
| Reactivity            | Human                             |
| Sensitivity           | 1 ng/ml                           |
| Intra-assay Precision | Intra-assay CV are less than 15%. |
| Inter-assay Precision | Inter-assay CV are less than 15%. |

### ADDITIONAL INFORMATION

#### Related Product Information for Der P1 IgE elisa kit

Intended Uses: This Der P1 IgE ELISA kit is intended for Laboratory for Research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Der P1 IgE in the sample, this Der P1 IgE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Der P1 IgE concentration. The concentration of E Der P1 IgE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
