

Human N-Cadherin ELISA Kit

Human N-Cadherin ELISA Kit

CATALOG #
AAA206080

REACTIVITY
Human

PRODUCT SYNONYMS

N-Cadherin; Human N-Cadherin ELISA Kit; N-Cadherin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	68

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for N-Cadherin elisa kit

Intended Uses: This N-CAD ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of N-CAD in the sample, this N-CAD ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus N-CAD concentration. The concentration of N-CAD in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	30027640
NCBI Official Full Name	N-cadherin, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
