

Mouse N2-AChR IgG ELISA Kit

Mouse N2-AChR IgG ELISA Kit

CATALOG #
AAA206419

REACTIVITY
Mouse

PRODUCT SYNONYMS

N2-AChR IgG; Mouse N2-AChR IgG ELISA Kit; N2-AChR IgG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	1ug/mL
Intra-assay Precision	Intra-assay CV less than 15%.
Inter-assay Precision	Inter-assay CV is less than 15%.

ADDITIONAL INFORMATION

Related Product Information for N2-AChR IgG elisa kit

Intended Uses: This N2-ACHR IGG ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of N2-ACHR IGG in the sample, this N2-ACHR IGG ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus N2-ACHR IGG concentration. The concentration of N2-ACHR IGG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
