

Mouse Oxytocin (OT) ELISA Kit | OT elisa kit

Mouse Oxytocin (OT) ELISA Kit

CATALOG #
AAA206582

REACTIVITY
Mouse

PRODUCT SYNONYMS

Oxytocin (OT); Mouse Oxytocin (OT) ELISA Kit; OT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	126

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for OT elisa kit

Intended Uses: This OT ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of OT in the sample, this OT ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus OT concentration. The concentration of OT in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	300675592
NCBI Official Full Name	oxytocin

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
