

Mouse Cholesterol (CH) ELISA Kit | CH elisa kit

Mouse Cholesterol (CH) ELISA Kit

CATALOG #
AAA206586

REACTIVITY
Mouse

PRODUCT SYNONYMS

Cholesterol (CH); Mouse Cholesterol (CH) ELISA Kit; CH elisa kit

PRODUCT SPECIFICATIONS

Reactivity

Mouse

ADDITIONAL INFORMATION

Related Product Information for CH elisa kit

Intended Uses: This CH ELISA kit is intended Laboratory for Research use only!. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CH in the sample, this CH ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CH concentration. The concentration of CH in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
