

Mouse Soluble Transferrin Receptor (STFR) ELISA Kit | STFR elisa kit

Mouse Soluble Transferrin Receptor (STFR) ELISA Kit

CATALOG #
AAA206789

REACTIVITY
Mouse

PRODUCT SYNONYMS

Soluble Transferrin Receptor (STFR); Mouse Soluble Transferrin Receptor (STFR) ELISA Kit; STFR elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	1120
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	5 nmol/L-80 nmol/L
Sensitivity	0.1 nmol/L

ADDITIONAL INFORMATION

Related Product Information for STFR elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of STFR in the sample, This STFR ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus STFR concentration. The concentration of STFR in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	12643676
UniProt Accession #	P76072
NCBI Official Full Name	Prophage side tail fiber protein homolog StfR

UniProt Protein Name	Prophage side tail fiber protein homolog StfR
UniProt Gene Name	stfR
UniProt Synonym Gene Names	ynaB

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
