

Mouse Endogenous Secretory Receptor For Advanced Glycation End Products (ESRAGE) ELISA Kit | ESRAGE elisa kit

Mouse Endogenous Secretory Receptor For Advanced Glycation End Products (ESRAGE) ELISA Kit

CATALOG #
AAA206843

REACTIVITY
Mouse

PRODUCT SYNONYMS

Endogenous Secretory Receptor For Advanced Glycation End Products (ESRAGE); Mouse Endogenous Secretory Receptor For Advanced Glycation End Products (ESRAGE) ELISA Kit; ESRAGE elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	334

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for ESRAGE elisa kit

Intended Uses: This ESRAGE ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ESRAGE in the sample, this ESRAGE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ESRAGE concentration. The concentration of ESRAGE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	84570471
NCBI GeneID	11596
NCBI Official Full Name	endogenous secretory receptor for advanced glycation endproducts
NCBI Official Synonym Full Names	advanced glycosylation end product-specific receptor
NCBI Official Symbol	Ager
NCBI Official Synonym Symbols	RAGE
NCBI Protein Information	advanced glycosylation end product-specific receptor

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
