

Mouse Lipase ELISA Kit

Mouse Lipase ELISA Kit

CATALOG #
AAA207114

REACTIVITY
Mouse

PRODUCT SYNONYMS

Lipase; Mouse Lipase ELISA Kit; Lipase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	476
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	50 U/L-800 U/L
Sensitivity	1 U/L

ADDITIONAL INFORMATION

Related Product Information for Lipase elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Lipase in the sample, This Lipase ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Lipase concentration. The concentration of Lipase in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	151342
NCBI Official Full Name	lipase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
