

Mouse Calcium ELISA Kit

Mouse Calcium ELISA Kit

CATALOG #
AAA207237

REACTIVITY
Mouse

PRODUCT SYNONYMS

Calcium; Mouse Calcium ELISA Kit; Calcium elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sensitivity	1.0 pg/mL
Intra-assay Precision	Intra-assay CV are less than 15%.
Inter-assay Precision	Inter-assay CV are less than 15%.

ADDITIONAL INFORMATION

Related Product Information for Calcium elisa kit

Intended Uses: This calcium ELISA kit is intended for laboratory research use only and is not for use in test or therapeutic procedures. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of calcium in the sample, this calcium ELISA Kit includes a set of calibration standards. The calibration standards are assayed simultaneously with the samples and allow the operator to produce a standard curve of Optical Density versus calcium concentration. The concentration of calcium in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
