

Mouse Lactoferrin ELISA Kit

Mouse Lactoferrin ELISA Kit

CATALOG #
AAA207509

REACTIVITY
Mouse

PRODUCT SYNONYMS

Lactoferrin; Mouse Lactoferrin ELISA Kit; Lactoferrin elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	708

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Lactoferrin elisa kit

Intended Uses: This LTF ELISA kit is intended Laboratory for Research use only!. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of LTF in the sample, this LTF ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus LTF concentration. The concentration of LTF in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	254656113
NCBI Official Full Name	lactoferrin

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
