

Mouse Alkaline Phosphatase ELISA Kit

Mouse Alkaline Phosphatase ELISA Kit

CATALOG #
AAA207677

REACTIVITY
Mouse

PRODUCT SYNONYMS

Alkaline Phosphatase; Mouse Alkaline Phosphatase ELISA Kit; Alkaline Phosphatase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	945

IMAGES

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Alkaline Phosphatase elisa kit

Intended Uses: This ALP ELISA kit is intended Laboratory for Research use only!. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ALP in the sample, this ALP ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ALP concentration. The concentration of ALP in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	189419925
NCBI Official Full Name	Alkaline phosphatase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
