

## Mouse Cystathionase Enzyme ELISA Kit

Mouse Cystathionase Enzyme ELISA Kit

CATALOG #  
**AAA207726**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Cystathionase Enzyme; Mouse Cystathionase Enzyme ELISA Kit; Cystathionase Enzyme elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Mouse                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 62.5 pg/ml-1000 pg/ml                                             |
| Sensitivity     | 1 pg/ml                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for Cystathionase Enzyme elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of CYSTATHIONYSIS ENZYME in the sample, This CYSTATHIONYSIS ENZYME ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus CYSTATHIONYSIS ENZYME concentration. The concentration of CYSTATHIONYSIS ENZYME in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
